Welcome Message

Mr. Iqbal Singh Jagdeva
President,
APSA International
New Delhi, India

The 16th APSA International Conference being organized by APSA Singapore Chapter will serve to be a milestone for the growth and development of each country's private security industries and to consolidate Asian Professional Security. It will also give a chance to exchange various valuable experiences through workshops and discussions of many distinguished speakers and experts in our field. At the same time there will be opportunity for networking with the Security professionals from various countries.

I sincerely urge all APSA Chapters to support this event. Let's also extend our warmest invitation to non-APSA members who may be the government officials, security practitioners and vendors to the 16th APSA International Conference.

I look forward to meet you at this Singapore event!

Mr. Yang Jin Cai
CEO,
AAA International
Shenzhen, China

I am pleased to announce that the 16th APSA International Conference which also incorporates the AAA Conference, will be held on 30 September and 1 October 2009 at the Suntec International Convention & Exhibition Centre in Singapore.

I would like to express my respect and admiration to APSA and AAA and its chapter countries for their continual emphasis on the importance of security and anti counterfeiting in the region. This conference offers an excellent platform for sharing and discussing the latest development in the security & anti-counterfeiting industry. It also provides the opportunity for industry players to network, exchange information and foster potential business collaboration.

With the smooth progression of this meeting, it will certainly enhance the relationship among the security and anti-counterfeit associations and results in a more proactive participation towards the security and anti-counterfeiting developments in Asia.

To conclude, I would like to extend my warmest congratulations to the association for organizing this event and wish the conference a resounding success.

We look forward to meet you at the beautiful city of Singapore!
